

L.E.D. LIFE EVOLUTION DESIGN

L.E.D.
Life Evolution Design

L.E.D. was founded by German auto designer Mr. Adolf Indermanur. He converted a car's intricate digital dashboard design into a watch, and at the same time incorporated environmentally friendly concepts. So, L.E.D. is not just a normal time-telling instrument: it also has a scrolling message function of up to 30 characters, for example, and this is most definitely the watch for all fashion-conscious technology enthusiasts.
