

# NEOLOG

**NEOLOG**  
germany

Since 2000, NEOLOG has pursued innovation amid the possible and the unknown among the eminent. Along the way, several watch collections of the utmost quality and technical significance were achieved. The NEOLOG OS (image), for example, won seven international awards for design and craftsmanship and became the most-awarded digital watch ever built. With three different ways of showing the time – including our patented quantitative display – it is the only watch that took reached that landmark and yet remained both readable and useful.

This year, an outer space theme serves to introduce the NEOLOG SP Satellite Precision Series. These watches synchronize the time in 39 time zones via satellites making them more accurate than any other watch on Earth. Come feast your eyes on and touch these masterpieces along with the all-new collection.
