

# PETER TANISMAN

**PT**  
**PETER TANISMAN**  
**GENEVE**

Peter Tanisman's timepieces perpetuate the great Swiss watchmaking art and "bienfacture". This classic watch in the CARROUSEL collection is a veritable work of art easily identifiable as much by its volume as by its lovely curved lines. A jewellery timepiece with a rectangular shape that is slightly curved to perfectly fit the wrist makes the perfect watch for the modern woman. An exclusive touch is the movable cylinder at 6 o'clock, set with 2 diamonds, that goes together with the dial and gives real emotion to an incredible piece. The crowning glory is a black satin strap with a red leather underside.
