**ZENITH**

Founded in Le Locle in 1865 by a visionary watchmaker, Georges Favre-Jacot, the Manufacture Zenith earned swift recognition for the precision of its chronometers with which won 2,333 chronometry prizes in 150 years: an absolute record in terms of pocket watches, onboard timers and wristwatches. Thanks to its legendary El Primero calibre — an integrated automatic column-wheel chronograph movement launched in 1969 and endowed with a high frequency of 36,000 VpH that ensures measurements accurate to the nearest 1/10th of a second.
